## Sandro Santantonio

Ecletticità armoniche.

Affermato designer multidisciplinare, fra i più prolifici della scena contemporanea, portano la sua firma le collezioni Muse e Melting Pot, una collezione di lampade a sospensione e da terra in grado di dare un'identità unica ed armonica ad un complesso di forme e grafiche differenti fra loro.

*Harmonic versatility.*

*Sandro Santantonio is a successful multidisciplinary designer, one of the most prolific on the contemporary scene. He designed Muse and Melting Pot collections. The last one is a collection of suspension and floor lamps that can give a unique and harmonious identity to a complex of different shapes and graphics.*

## Manuel e Vanessa Vivian

Cultura e artigianalità.

Manuel Vivian, designer di lunga esperienza, è custode inconsapevole della migliore tradizione artistica e manifatturiera italiana. Cultore dei processi produttivi artigianali, nelle sue creazioni non pone alcun limite alla sperimentazione. Sono frutto dell'idea creativa di Manuel alcune fra le più importanti collezioni storiche di Axolight: Bell, Skin, Skirt, Spillray, Fairy, Aura, Clavius, Virtus, Polia, Framework.

Vanessa, talentuosa figlia d'arte, è la mente creativa delle collezioni Layers e Plumage, oggetti che sembrano derivare dall'estro e dall'esperienza di designer maturi e completi, ma che al contrario provengono dall'immaginazione e dalla visione incontaminata di una giovane designer, eccellente portabandiera di una grande eredità familiare.

*Culture and craftsmanship.*

*Manuel Vivian, a long-experienced designer, is an unwitting guardian of the best in Italian artistic and manufacturing tradition. He is an expert in artisan production processes, in his creations he sets no limits to experimentation. Some of the most important historical collections of Axolight are the result of Manuel's creative idea: Bell, Skin, Skirt, Spillray, Fairy, Aura, Clavius, Virtus, Polia, Framework.*

*Vanessa, a talented daughter following the footsteps of her father, is the creative mind behind the Layers and Plumage collections, objects that seem to come from the inspiration and experience of mature and complete designers, rather than the imagination and uncontaminated vision of a young designer, an excellent standard-bearer of a great family legacy.*

## Studio Yonoh

Alex Selma and Clara del Portillo

Contemporaneità e vision.

Studio creativo multidisciplinare, fondato dai designer Clara del Portillo e Alex Selma. Alla prima collaborazione con Axolight, è loro l'idea di Jewel, pendente di piccole dimensioni, sintesi armonica fra le necessità funzionali e la vocazione decorativa della lampada. Studio Yonoh è oggi uno fra gli studi di design più premiati della scena internazionale. Semplicità, carattere ed innovazione sono sicuramente i primi tre elementi distintivi della loro moderna filosofia progettuale.

*Contemporaneity and vision.*

*Multidisciplinary creative studio founded by designers Clara del Portillo and Alex Selma. Jewel represents the first collaboration between Studio Yonoh and Axolight. It is a small pendant, a harmonious synthesis between functional needs and the decorative vocation of the lamp. Studio Yonoh is one of the most awarded design studios on the international scene in this day and age. Simplicity, character and innovation are certainly the distinctive elements of their modern design philosophy.*
